### **Ebullient Electrical League of Students (Eels)**

Subject: Report on the awareness of EELS on 21/07/2018.

In order to create awareness among the students of 2<sup>nd</sup> year about the department and also the activities that are going on in the department the execom members of EELS have organized this event. Students of 2<sup>nd</sup> year both the sections have participated in it. The event was held for one hour. A total of 74 students have participated in it. The main Moto of this is event is that to create awareness among the students about the various forums and the events that are organised by them. Students of 3<sup>rd</sup> year students shared their experiences about how the association has organised the events in the past years and how they participated in it. P.Harish from final year explained the students about the various forums and how they are useful for the students in their future. He also mentioned how effective our department is in encouraging the people for doing projects and practical learning. The students who are interested to organize the events and to do projects have been selected as volunteers for the execom members for the academic year 2018-2019.

## **G.Pulla Reddy Engineering College(Autonomous): Kurnool**

Department of Electrical & Electronics Engineering

Ebullient Electrical League of Students (EELS)

Subject: Report on Overview of electrical engineering held on 04/08/2018.

In order to create interest among the students towards the subject and to create awareness on how electrical engineering is playing a key role in the modern world and what will be the scope of it in the future, the department association has organised a session on overview of electrical engineering. This session was taken up P.Harish of 4<sup>th</sup> year. This event was conducted for 2<sup>nd</sup> year students. A total of 110 students attended the session. It was held for 2 hours. The session was about how to get practical knowledge in electrical engineering and how to learn the subject. He also mentioned the job opportunities for electrical engineering students and the importance of electrical engineers in the future. As the students of 2<sup>nd</sup> year might not have much knowledge about electrical engineering so keeping in view the association has organized this event. By the event of this event students of 2<sup>nd</sup> year were able to understand the future scope and the job opportunities in electrical engineering.

Department of Electrical & Electronics Engineering

Ebullient Electrical League of Students (EELS)

Subject: Report on seminar conducted on 15/09/2018.

In order to increase the general knowledge skills and general awareness among the students the department association has organized a seminar on a general topic” Corruption”. As present students will be the future engineers who have to work for the development of the nation and it is the duty of every student to know what the effects of corruption and how it is degrading the nation and how it affects the nation economy. Along with the academics it is the duty of every student to get awareness on the general topics. This seminar was given by 3<sup>rd</sup> year student L.Shafi. Students of 2<sup>nd</sup> year participated in it. A total of 45 students participated in it. The session was held for 45 minutes. And also to educate the students on about politicians are involving in the corruption and how are making more money and it is the duty of future citizens to question them. How corruption is a crime and what are the laws that are implemented for eliminating of corruption.

Department of Electrical & Electronics Engineering

Ebullient Electrical League of Students (EELS)

Subject: Report on quiz on 22/12/2018

In order to improve the technical and general knowledge skills in students the association of EEE has organised a quiz programme. The quiz was held for 45 minutes. The students of 2<sup>nd</sup> EEE participated in it. Students from both the sections were divided into two groups. A total strength of 69 students participated in it. The questions were displayed on the screen and the students answered them as teams. One from each team stood up and answered for each question. There is active participation from students. The questions were from current affairs, electronics, electrical and also central ministries. Each correct answer was given 10 marks and a pass question for 5 marks. Finally b-section won the quiz with the marks of 130. A-sec is with 90 marks. The following are some of the snapshots of the session.

Department of Electrical & Electronics Engineering

Ebullient Electrical League Of Students (EELS)

Subject: Report on introduction to matlab onramp conducted on 02/02/2019.

Being Electrical engineers simulation play a major role in many aspects of their engineering life. In order to make students of 2<sup>nd</sup> year to know the importance of simulation this session was conducted. Among all simulation software's Matlab is very important and is the latest simulation software used by electrical engineers. So matlab is used even in our laboratories.

In order to teach basics of the basics of matlab and how to use this software to the students we have conducted this session. EELS execom members of 3<sup>rd</sup> year students took the initiative to conduct this session. A total of 80 students from 2<sup>nd</sup> year participated in this session. The session was held for one hour. This matlab onramp is a course which is started by mathworks. Where we can learn matlab for free of cost. We need to register into it and we can practice matlab in by just logging into it. As 2<sup>nd</sup> year students will have more time to practice it this session is conducted for them. Finally at the end of this session 2<sup>nd</sup> year students got a brief idea about this simulation, software's, onramp course.

Department of Electrical & Electronics Engineering

Ebullient Electrical League Of Students (EELS)

Subject: Report on seminar by placed seniors conducted on 12/03/2019.

Getting a job in the campus is the best option rather than going out and searching for a job. This year our college has a best placement record with 500+ placed students. In order to get an idea about placements and how the placements process is being taken place students of 3<sup>rd</sup> year requested placed seniors from electrical department to give them the information about placements and career opportunities for EEE students.

In order to conduct this session EELS became a platform for placed students to express their views and to share their experiences about placements. Shaista and Saketha who are placed in TCS expressed their views regarding how they have prepared for their placements, what were the questions asked by the HR in interview, what mistakes they have are and many more related to placements. Saketha also gave a brief idea about the job opportunities for electrical students in public and private sectors. She also gave information regarding GATE .This session was held for 1 hour and 3<sup>rd</sup> year students asked many doubts and they clarified them up to their knowledge level. A total of 42 students participated in this session.

	R. Chakri		Student Secretary	

4. **No. of Students enrolled: 60 in 2019 till date ; 51 in 2018**

**No. of faculty enrolled: 80 in 2019 till date ; 79 in 2018**

5. **Details of events organized i.e. name of event, dates number of students participated, etc.**

S.No	Name of the Event/Activity	Date
1	IEEE Awareness Programme for all years	22 <sup>nd</sup> July 2018
2	IEEE Awareness on Computer Society	4 <sup>th</sup> October 2018
3	Awareness on MTT, COMSOC and ITSOC chapter and benefits for ECE students	15 <sup>th</sup> September 2018
4	Poster Presentation on "Role of youth in fight for Gender Equality"	12-12-2018
5	Group discussion on "Objectification of men and women"	13-12-2018
6	Debate on "Equality is not privilege but a human right"	17-12-2018
7	A Guest Lecture on "Energy Conservation" by Sri Amudagan, Asst Engineer from Greenko Group, Hyderabad	29 <sup>th</sup> December 2018
8	IEEE WIE AG Star Program for Pasupala Girl students	3-03-2019
9	An Elocution competition on "Parental Dominance and gender equality"	5 <sup>th</sup> March 2019
10	A Paper Presentation on "Safety-Security-Self Defence in Women's Life"	6 <sup>th</sup> March 2019
11	An activity Mock Parliament on "Women in Politics"	7 <sup>th</sup> March 2019
12	Poster presentation on "Women in Technology Balance for Better"	8 <sup>th</sup> March 2019

13	A two day Student congress on “Women in Technology”-Think Equal, Build smart and Innovate for change.	8 <sup>th</sup> - 9 <sup>th</sup> March 2019
14	A guest Lecture on “Balancing Life “ by Dr Gayani, Correspondent, Montessori Institutions, Kurnool on the occasion International Women’s Day celebrations.	9 <sup>th</sup> March 2019
15	Inauguration of IEEE Power Electronics Society Students Chapter and Robotics and Automation Society Students Chapter at GPREC	11 <sup>th</sup> March 2019
16	Inauguration of IEEE Robotics and Automation Society Students Chapter at GPREC	11 <sup>th</sup> March 2019
17	A technical talk on “Power Electronics for Rail Transportation” by Dr PV Raja Gopal, Retd Gen Manager, BHEL, Chairman PES/IAS/PELS Joint Chapter IEEE Hyderabad Section	11 <sup>th</sup> March 2019
18	A seminar on “3-D Printing” by Sri. V.N. Pavan Kumar, Managing Director, VN Technologies, Kurnool	11 <sup>th</sup> March 2019
19	IEEE PES day Celebrations	3 <sup>rd</sup> May 2019

**6. Awards and Recognitions won by the students/faculty: -**

- Mr G. Vijay Bhaskar of 2015-19 batch was sanctioned an amount of 1500\$ US for conducting AHPSSC 2018.
- Mr M Ajay Kumar of 2015-19 batch was sanctioned an amount of 250\$ US for conducting Solar based project at a School.

**7. Budget allocated and utilized (if any):** The IEEE STB received funds from IEEE headquarters as given below for the year 2018.

- An amount of 1500\$ US was released or the conduction AHPSSC-2018 as a part of IEEE PES MDI programme.
- An amount of Rs 23000/- was sanctioned as encouragement in conducting AHPSSC 2018 by IEEE Hyd Section for the year 2018.
- An amount of 200\$US was received by IEEE PES students’ chapter for achieving 11<sup>th</sup> Position across the world.

**8. Specify the aims and objectives of the forum for the next academic year:**

**Vision:** The primary purpose of IEEE student branch is to Inspire, Enable, Empower and Energize our student members to enhance their technical interests by providing them a platform to show case their skills.

**Mission:**

- To work towards inspiring more students to become members
- To increase the Membership Retention, through the benefits of IEEE
- To organize technical awareness programs for young professionals

- To form more Special Interest Groups to encourage project activity among the student members
- To kindle students interest in making projects
- To strive towards achieving more IEEE-sponsored awards and aim at representing papers in international conferences

#### **9. Any other information: Suggestions for Betterment of GPREC IEEE**

IEEE Student Branch at GPREC is very active and many events are being conducted since its inception from 2014 onwards with the motto of unrivaled network of professionals, experts, and advisors that can nurture the engineering students' career to become successful professionals, offer resources to acquire new skills, advance their professional development, and provide numerous opportunities for involvement, recognition and reward.

Even though the activities are being conducted regularly the students' member strength is a big task for the student branch. Though awareness programmes are being conducted by the students and the faculty advisors, it is not that much effective as expected because of the following reasons.

- The students who are giving awareness are not participating in many events outside the college events under IEEE banner.
- Also very few student members are achieving good results in IEEE.
- One reason for many students not taking IEEE Membership is financial aspects i.e Membership fee is a little bit high for those who are interested but economically not viable for them.
- Another reason is lack of self motivation for improving their academic skills.
- Also because of various forums available, many students are unable to participate in the activities being conducted under IEEE SB of our college.

#### **10. Suggestions for the betterment of GPREC IEEE SB**

- Appreciation for the student members who are active in IEEE SB in the form of a memento and Certificate to be issued by Branch Counselor and Principal of the institution.
- Collection of an amount of Rs 2500/- from students for IEEE membership and societies fee in the beginning of Academic year from First year onwards regularly for every year or else for two consecutive years during their course of study.
- Providing IEEE student membership as an Incentive to students for being topper of the branch and also topper of the college every year.(This may help to improve retention of IEEE student members as well as improve the quality projects, events and also they may in turn apply for the projects in IEEE which add to the institution credentials.
- Mandatory IEEE membership for at least one student in a project batch during final year and the same membership can be shared by his/her team members.
- Mandatory IEEE membership for all PG students and research scholars.
- A suggestion for all IEEE students and faculty members is to submit IEEE humanitarian project proposals and any project proposal that are applicable in IEEE.

Motivations to students to participate in inter college competitions under IEEE banner, is to be done and an appreciation in the form of certificate or memento for them whenever they achieve prizes or commendations.

Any other information: Suggestions for betterment of GPRC IEEE

**Date : 30-07-2019**

**(Dr. C. Harinatha Reddy)**  
**(IEEE Student Branch Counselor)**

PRC is very active and many events are being conducted since the motto of unrivaled network of professionals, experts, engineering students, career to become successful professionals, offer resources to acquire new skills, advance their professional development, and provide numerous opportunities for involvement, recognition and reward. Even though the activities are being conducted regularly the students' member strength is a big task for the student branch.
